One memory, every agent. — Developer tools: shared memory for AI coding agents

idea

WHERE IT SITS

FEELS

quiet · returnable · durable

THE IDEA

A ribbon in the night ledger: the bookmark mark keeps its cut slot, Hahmlet sets the name like an entry in a work log, and the palette is the ledger's ink, one amber rule and bone.

ONE LOUD THING

The amber rule is the only bright line; everything else is ink, bone and the ribbon.

WHERE IT DIFFERS

Where the category is bright graph-and-gradient, this is a night ledger with a bookmark: a paper act (leaving a mark in the file) on an unattended dark tool.

THE MARK

The ribbon a reader leaves at the page they will come back to.

ALL RIGHTS RESERVED

©2026 MEMDEX

logo

The symbol + wordmark is the primary logo. Use it wherever the space allows; every other version is derived from it.

CLEAR SPACE

Keep at least x = 1 × the wordmark's cap height free on every side. (inferred from the drawing; confirm before print)

- Use the supplied files in kit/logo; never retype or redraw the wordmark.
- Scale proportionally, from the corner.
- The guide lines show the cap height and baseline the lockup is aligned on.

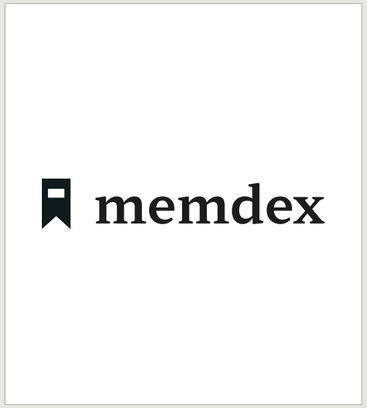

ALL RIGHTS RESERVED

©2026 MEMDEX

logo

Pick the version by the space, not by taste. When the primary logo would render smaller than 22 px tall, switch to the symbol.

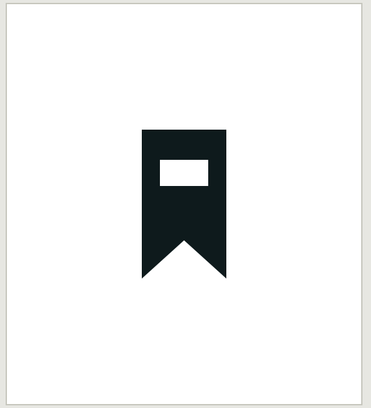

Primary

Horizontal lockup. The default for headers, documents and signage.

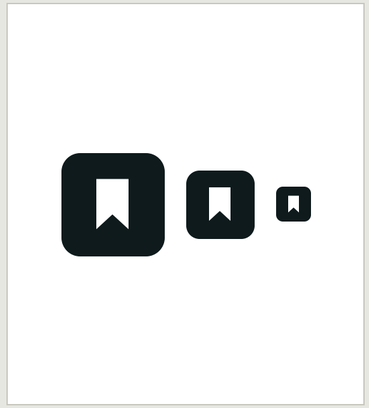

Stacked

For square and narrow spaces where the horizontal lockup gets too small.

Symbol

On its own only where the brand is already named nearby: avatars, app icons.

Favicon

The symbol on the primary colour at 48, 32 and 16 px.

22 px · smallest on screen

7 mm · smallest in print

32 px · symbol

16 px · symbol

logo

Every logo part keeps at least 3:1 against its ground. Where the colours cannot, the logo switches to one colour.

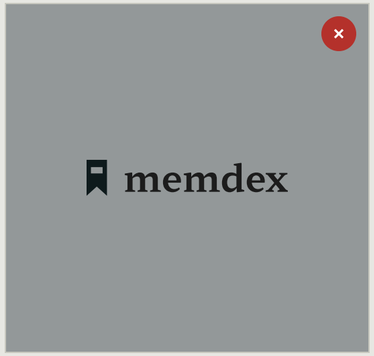

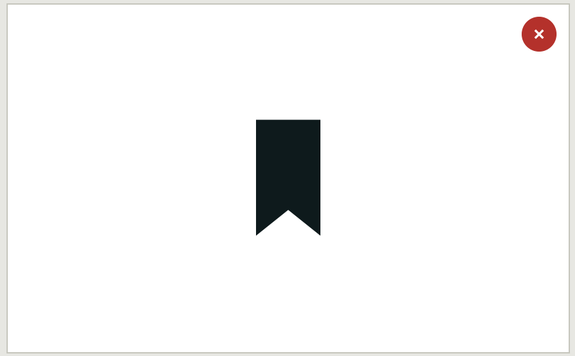

Don’t stretch

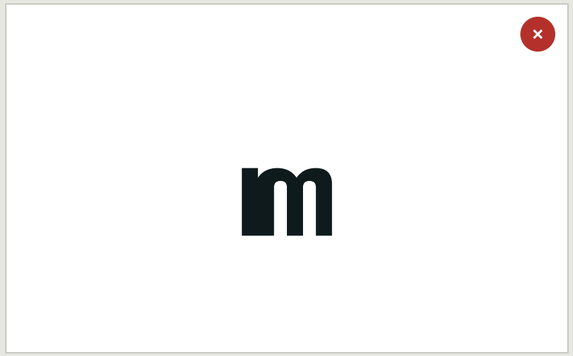

Don’t recolour

Don’t use low contrast

Do not fill the cut slot; it is what makes the ribbon a bookmark

Do not swap the ribbon for the wordmark’s initial

ALL RIGHTS RESERVED

©2026 MEMDEX

Near-black ledger, bone entries, one amber rule and a bookmark ribbon.

colours

Band heights show how much of each colour a typical page uses. Large areas take the ground and primary; the accent stays small.

PRINT

Screen values are exact. For print, ask your printer for CMYK/Pantone matches made with their profile; the Lab D50 values are the reference to match against.

TINTS

80, 50 and 20% for charts and backgrounds only, never for text.

LEDGER INK CORE COLOUR	HEX RGB OKLCH LAB D50	#0E1A1C 14 26 28 0.21 0.017 209 8.2 −4.9 −3.2	80%	50%	20%

Placeholder icons, not drawn for this brand. Draw the brand’s own set to the rules on the left.

icons

- 24 px grid, 2 px padding, 1.75 px stroke.
- Round caps and joins; no fills except for a selected state.
- Icons take the ink or primary colour, never the accent.
- Sample set shown in the system style; draw new icons to match.

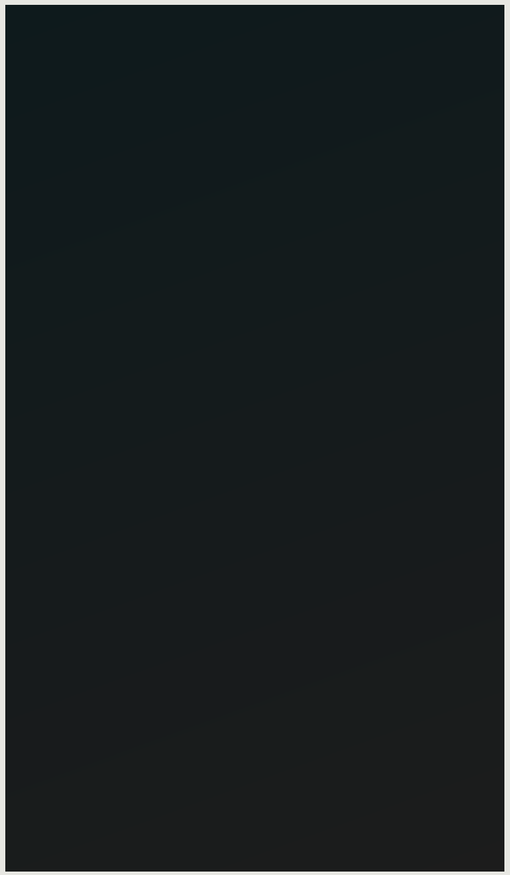

ALL RIGHTS RESERVED

imagery

Not defined in this kit: the panels show colour treatment only, and the rules are a starting point to replace with the brand’s own.

- Real people, real places; natural light.
- Duotone in the primary and ink for backgrounds behind text.
- The accent appears in pictures only where it already exists in the scene.
- No stock clichés: no handshakes, no glowing orbs.
